

Lifeline

Helps people who use drugs

LIFELINE!

you can't get a script,
you can't get a detox,
so what's the point.

WHAT DO THEY
EVER DO FOR US?

They give out
PINS, SWABS,
CITRIC and WATER
and collect all your
old stuff.

OK, apart from
pins, swabs, citric and water
WHAT DO THEY EVER
DO FOR US?

When i had abscesses, ulcers & sores on my legs, the NURSE there cleaned & bandaged it and showed me how to find a vein and INJECT properly!

Yer, yer, apart from pins, swabs, citric and water, treating abscesses and giving injection advice, WHAT DO THEY EVER DO FOR US?

They tested me
for hepatitis B & C
& HIV and gave me a
vaccination against
hep B.

Pins, swabs, citric and water,
treat abscesses and sores,
injection advice, testing and
vaccinations against hepatitis B.
but.. WHAT DO THEY EVER
DO FOR US?

They let you
use the PHONE for
free provided you don't
take the piss.

Right! pins, swabs,
citric & water, treat
abscesses and sores, injection
advice, testing, hep B
vaccinations and free use
of the phone,
but
**WHAT DO THEY EVER
DO FOR US?**

Lifeline Manchester

They helped me
sort out my housing
& **BENEFITS** &
problems with my
PROBATION
OFFICER.

Well apart from
pins, swabs, citric and water,
treat abscesses and sores,
injection advice, testing,
hepatitis B vaccinations, free use
of the phone, help with housing,
benefits and legal problems,
**WHAT DO THEY EVER
DO FOR US?**

I just needed
someone to talk to,
a shoulder to cry on.
they LISTENED

Right, lets see.
pins, swabs, citric and water,
treat abscesses and sores,
injection advice, testing,
hep B vaccinations, free use of
the phone, help with housing,
benefits and legal problems,
someone to talk to and listen,
ANYMORE?

They helped me
get into REHAB and
found me a doctor who
sorted out a SCRIPT
while I was waiting.

SO! pins, swabs, citric
& water, treat abscesses & sores,
injection advice, testing & hep b
vaccinations, free use of the phone,
help with housing, benefits &
legal problems, someone to talk
to and listen, help getting a script,
help getting into rehab.
BUT.. WHAT DO THEY EVER
DO FOR US? EH?

FREE
CONDOMS!

they're open
SATURDAY morning!

you can use their
COMPUTER!

Lifeline

and it's all
FREE
